

To whom it may concern,

I have had the opportunity to work with Dale Gene Copley in numerous roles. As co-workers, as his manager, as well as his employee. I have been acquainted with Mr. Copley twenty years.

Mr. Copley is an incredible manager of product and merchandise and most importantly, of people. He is extremely fair and practical in all his decision making as well as a creative thinker and planner. It is because of his fair practices that I chose to work for him and return back to him after a time of absence from employment with him.

I strongly encourage you to get to know Mr. Copley and create any opportunity you can to include him in your company. I invite you to contact me at any time for further reference.

Sincerely,

Jon McUne
