

Dear Sir or Madam,

Gene was always a pleasure to work with. His patience and integrity were always displayed in his interactions and relationships. While he was training me, he always made sure that I understood the procedures and methods used at OnRamp/Reveil. Gene has equipped me with skills that I can now implement in other areas of my life. His dedication to his job always evident, and he will always make sure that the job gets done, even if it cuts into his personal time. I've thoroughly enjoyed having Gene as not only a manager but also someone whom I can confidently work alongside with to get things done.

He brings a great deal of joy to the workplace, but also professionalism and wisdom.
