

Carpe Diems Enterprises
Cathy Thompson
2888 Strasburg Street
Medford, Or 97504

I have known Gene Copley for 30 years and have employed Gene as a manager for the past 2 years. Gene brings energy, enthusiasm and know-how to any task assigned to him. His on the jobs responsibilities have been scheduling, vendor check, equipment maintenance and repair, and crew member training, mentoring and monitoring.

I have employed over 100 employees and Gene stands out in his genuine care of customers. I am confident that Gene is truthful on the job as well as possessing a rare quality of leadership not often found in employees. Gene, as well as being a leader, is also an asset as a team member with much to contribute to any project or task. Gene has a unique prospective and is able to look at projects from many different angles. Gene would be an asset to any organization.

Genes past and present outside activities, have had a positive impact on our local community as well as in the work place. I have enjoyed working with Gene these past two years and know he will succeed at what ever he puts his mind toward.

Sincerely,

Cathy Thompson
President
