

To whom it may concern:

I have known Mr. Copley for over the past year while I worked as the franchise business consultant for the Quizno's Corporation. Each time I came to the store I was welcomed and greeted with such a genuine and amazing attitude. The positive mental thinking and his great people skills makes him an asset to any team he is a part of.

His creative and sometimes out of the box thinking allows for progress to be made when most would have hit a wall solving the same problem. Having successfully owned and operated his own businesses makes Gene a great candidate for any position in a company.

Sincerely,

Cole Harvey
